

# SpeedUP!

**FAST-TRACK YOUR PROJECT WITH  
EXTREMELY SHORT LEAD TIMES**

# SpeedUP!

## Fast-Track Your Project

Developing new biotechnological processes is complex and requires optimizing various aspects like cell clones, media, and cultivation systems. Tailored for all cell culture formulations, including media, buffers, and reagents, our innovative SpeedUP! service combines your idea with our expertise in production. Benefit from extremely short lead times, offering full flexibility and control for your projects!

### THE NEED FOR OPTIMIZATION

As your process development progresses, the potential for significant optimization often arises. Thereby, customized media, buffers, or other solutions become inherent options for process optimization.

Unfortunately, the supply of these tailored products is often times accompanied by the requirement to purchase large quantities, and also long lead-times. That's where our SpeedUP! service comes in ...

### EXTREMELY SHORT LEAD TIMES

SpeedUP! allows you to rapidly test small volumes of modified media formulations or customized solutions, tailored to your specific needs. These formulations are available with remarkably short lead times of 7 business days.

We manufacture your product using high-quality raw materials and equipment. Combined with our extensive cell culture expertise and our validated manufacturing process, we equip your project with fast improvements.

### RAW MATERIALS

Enhance your formulations with raw materials sourced from qualified suppliers. Our dual-sourcing strategy ensures a robust supply chain, while rigorous incoming material characterization lays the foundation for achieving outstanding product quality.

Each component undergoes comprehensive analysis for seamless traceability, cell culture suitability, endotoxin levels, and established pharmacopeial standards (e.g., USP, EP).

# YOUR KEY BENEFITS

## *With SpeedUP!*

Our SpeedUP! process is crafted to provide a secure product, empowering you to rapidly test and refine your initial ideas. By saving precious time, SpeedUP! empowers you to secure a first-mover advantage in the market.

### QUICK TURNAROUND

Our service prioritizes rapid completion, ensuring project turnaround within 7 business days.

### COST-EFFECTIVE SOLUTIONS

Our SpeedUP! service is optimized for your specific requirements, ensuring high cost-efficiency.

### TAILORED SOLUTIONS

We manufacture customized cell culture products tailored to your specific needs and formulations.

### AGILE PROJECT MANAGEMENT

SpeedUP! prioritizes clear and open communication, ensuring a timely and seamless experience.

### CONSISTENT HIGH QUALITY

We utilize the same, high-quality raw materials across all production scales for reliable results.

### YOUR PARTNER IN CELL CULTURE

Benefit from our support and services throughout your project – every step of the way.

## ORDERING

### Information

### DISCOVER THE POSSIBILITIES

- ✓ Customized media & buffers
- ✓ Standard formulations with supplementation
- ✓ Sterile-filtered products

### PRODUCT SPECIFICATIONS

- ✓ 7-day turnaround (subject to materials stock)
- ✓ Batch sizes up to 20 L
- ✓ Cost-effective pricing

### JOIN US IN ACCELERATING PROGRESS

Choose SpeedUP! for unparalleled speed, flexibility, and control in your cell culture formulations!
