

Product Information

TumorPlus 263
Complete Medium for Tumor Cells, with L-Glutamine
Cat. No. TP-A (500ml)

General Information

TumorPlus 263 is a complete medium with an optimized mixture of trace elements and selected serum components. Synthetic iron-binding molecules facilitate the transport of iron ions into the cell.

Features:

- Ready and easy to use
- Optimized for tumor cell lines
- Defined culture conditions
- No addition of serum necessary
- Reproducible working conditions

Composition:

- Modified formulation of RPMI 1640
- Well-balanced mixture of trace elements
- Protein fractions from soy beans
- Synthetic iron-binding molecule for better uptake of iron ions
- L-Glutamine

Product Specifications

Appearance	Clear red orange solution
CO ₂ Concentration, optimum	4.5 %
Storage and shelf life	Store at ≤-15°C. Avoid repeated freeze-thaw cycles. After thawing store at +2°C to +8°C and use within 6-8 weeks.
Shipping conditions	Frozen (Dry ice)

Instructions for Use

TumorPlus 263 is a ready-to-use complete medium, which can be used directly in your cell culture, instead of your conventional serum-containing medium. Usually there is no adaption of cells required.

Thawing:

Thaw TumorPlus 263 Medium at refrigerator temperatures (+2°C to +8°C). Mix gently after thawing.

Precautions and Disclaimer

This product is for research use and further manufacturing only. Not for use in animal or human diagnostic or therapeutic application.
